Alongside associated procedures, this policy was adopted by Ramas Daycare on September 2026.

Aim

We have record keeping systems in place for the safe and efficient management of the provision and to meet the needs of the children; that meet legal requirements for the storing and sharing of information within the framework of the GDPR and the Human Rights Act.

Objectives

- Children's records are kept in personal files, divided into appropriate sections, and stored separately from their developmental records, or are kept electronically on management software systems.
- Children's personal files contain registration information as specified in procedure 07.1 Children's records and data protection.
- Children's personal files contain other material described as confidential as required, such as **Early Help Assessments**, Early Support information or Education, Health and Care Plan (EHCP), case notes including recording of concerns, discussions with parents/carers, and action taken, copies of correspondence and reports from other agencies.
- Ethnicity data is only recorded where parents/carers have identified the ethnicity of their child themselves.
- Confidentiality is maintained by secure storage of files in a locked cabinet with access restricted to those **who have a right or professional need to see them**. Client access to records is provided for within procedure 07.3 Client access to records.
- Staff know how and when to share information effectively if they believe a family may require a particular service to achieve positive outcomes.
- Staff know how to share information if they believe a child is in need or at risk of suffering harm.
- Staff record when and to whom information has been shared, why information was shared and whether consent was given. Where consent has not been given and staff have taken the decision, in line with guidelines, to override the refusal for consent, the decision to do so is recorded.
