

LOCKDOWN POLICY

This policy explains what we should do in case of an emergency and the nursery has to go into either partial or full lockdown.

Lockdown procedures should be seen as a sensible and proportionate response to any external incident which has the potential to pose a threat to the safety of children and adults in the setting.

Lockdown procedures may be activated in response to any number of situations, but some of the more typical might be:

1. A reported incident or disturbance in the local community (with the potential to pose a risk to children and adults in the setting)
2. An intruder onsite (with the potential to pose a risk to children and adults in the setting)
3. A warning being received regarding an environmental risk locally, of air pollution (smoke plume, gas cloud etc)
4. A major fire in the vicinity of the setting
5. The close proximity of a dangerous animal

Partial lockdown

During a partial lockdown parents should not:

- Contact the setting during lockdown as this could block telephone lines that are needed for contacting emergency services
- Should not come to the setting during lockdown as this may place themselves and others in danger
- Wait for the setting to contact them about when it is safe for them to come and collect their child

A partial lockdown is a precaution aimed to keep children and staff safe while remaining indoors. This may be as a result of a reported incident/civil disturbance in the local community with the potential to pose a risk to children and staff in the setting. It may also be as a result of a warning being received regarding the risk of air pollution, etc. In a partial lockdown staff and children should remain in the building and all doors leading outside should be locked. No-one should be allowed to enter or leave the building; however, the setting can continue as usual.

What usually happens during partial lockdown?

- All outside activity to cease immediately, children and staff return to building. (There needs to be a means of communicating the alert to staff). All staff and children should remain in the building and external doors and windows should be locked.
- Free movement may be permitted within the building dependent upon circumstances
- In the event of an air pollution or chemical, biological or radiological contaminants issue, air vents, fans, heating and air conditioning systems should be closed or turned off.

- Seal up all the cracks around doors and any vents into the room – aim to minimise possible access points of pollutants

Full Lockdown

This signifies an immediate threat to the setting and may be an escalation of a partial lockdown Immediate action:

- All children and staff should return to/stay in the building, in an area of your nursery where they can remain safe and secure for an extended period.
- External doors should be locked
- Internal doors might be locked (where a member of staff with a key is present)
- Lock windows, draw blinds and curtains, cover internal door windows (so an intruder cannot see in)
- Staff and children to sit quietly out of sight and where possible in a location that would protect them from harm such as gunfire (bullets go through glass, brick, wood and metal). Consider locations behind substantial brickwork or heavy reinforced walls.
- Turn off lights, computer monitors
- Turn off mobile phones (or at the least turn onto silent so they cannot give away your position)
- A register should be taken and headcount completed of all staff and children at the setting
- Children should not be released to parents during a lockdown and staff should not leave the premises unless instructed to do so

Lockdown Procedure:

During Lockdown parents should not:

- Contact the setting during lockdown as this could block telephone lines that are needed for contacting emergency services
- Should not come to the setting during lockdown as this may place themselves and others in danger
- Wait for the setting to contact them about when it is safe for them to come and collect their child

Our Procedure:

1. Staff should be vigilant and if they see something which is likely to cause harm to immediately shout “LOCKDOWN” so that everyone can hear, alerting staff outside by opening the door and shouting the alarm call. Count the children as they come inside, checking the total with the register. Immediately check in the garden if any children are found to be missing.
2. On hearing this alarm call all staff to bring registers, telephone and index cards and guide children and any visitors/students etc down to the designated “**Safe Zone**”. Checking each area is empty as they go, locking external doors and windows; turn off lights and turning off any monitors. Then...

3. One member of staff immediately counts the children/ staff and check against totals in register. If a child or staff member is missing the Manager (or senior staff member in their absence) to search in the building and bring them back to the designated “**Safe Zone**” as quickly and quietly as possible.
4. One member of staff to double lock front door
5. Remaining staff sit in the book corner, away from windows, with the children to help keep as calm and quiet as possible.
6. TURN LIGHTS OFF AND KEEP THE GROUP AS QUIET AS POSSIBLE
7. A contact list of parents is kept in the cupboard by the stairs
8. A senior member of staff to ring 999 to report the incident and follow their instructions
9. On the authority of the police, we will now notify parents that we are currently following our lockdown procedure
10. If a group are on an outing when the incident occurs, a staff member to telephone them to tell them NOT to return to the nursery until the all clear has been given. If it is safe to do, the group should stay where they are e.g., in the library/museum. If they are on their way back to the nursery, to stop and go back to the venue and stay there until advised otherwise. (This group will have a nursery mobile and parent contact list with them). The staff on the outing to ring the police for advice.
11. On being told to do so by police, the staff would contact the parents and notify them of the incident. If safe to do so, we would suggest to parents to collect their children from the venue. If not, we would remain there until it was safe to leave and return to the nursery.
12. Both staff and children should have access to drink and snacks to help keep all parties calm
13. The entrance to the designated Safe Zone could be barricaded if necessary.
14. We would remain in the designated Safe Zone until told otherwise by the authorities, supporting the children and each other, for as long as necessary (mattresses and blankets are located at the top of the stairs)
15. If the incident is being dealt with by the authorities and we are not directly affected and have been told to do so by the police, we will leave the kitchen area and return to the classrooms in the hope to reduce the stress on the children as much as possible.
16. We would remain within the building (not venturing into the garden) until the all clear has been given by the authorities.
17. On being told to do so by the police, we would email parents to notify them of the incident. The telephone would be manned to receive incoming calls.

After lockdown has taken place:

A letter to parents will be sent home as soon as possible following any serious incident to inform parents of context of lockdown.

Following the need for lockdown, the setting management will create a full record of the event.

Policies and procedures will be reviewed as soon as possible to identify any areas for potential development.

A notification of significant incident will be made to Ofsted within 14 days (preferably as soon as possible after the incident).
